# Mister Passer

WORLD AND CONGRESS CHAMPION SIRE

### Information for the 2008 breeding season.

Dear Mare Owner,

Thank you for considering the breeding of your mare to our stallion "Mister Passer" in the 2008 breeding season. We are committed to breeding the best horses possible that aren't just pretty to look at but have excellent conformation, great minds and natural athletic ability to be able to be competitive in western, hunter and halter as well as other disciplines. Enclosed you will find the breeding contract package you requested.

"Mister Passer" has proven himself as an all around sire, siring point earners in western pleasure, hunter under saddle, western horsemanship, hunt seat equitation, western riding, pleasure driving, halter, etc. in open, amateur and youth in AQHA and NSBA competition. He is the sire of World and Congress Champion "The Snooty Fox," as well as numerous other top ten placers at the AQHA World, AQHA Select World and the AQHA Youth World. He has sired numerous Superiors and Register of Merit earners as well as AQHA High Point top ten placers. "Mister Passer" is also the sire of the 8th ALL TIME point earning hunter under saddle horse. And "Mister Passer" only has 49 foals 2 yrs old or older. You are welcome to check out our website at anytime to learn more about his siring ability and what he has done in the show ring himself.

"Mister Passer" is one of a few own sons of the LEGENDARY "Barpasser," standing at stud today. "The Barpasser line continues to influence pleasure horses of today with horses such as "Invitation Only." "Mister Passer", will be standing at Snodgrass Veterinary Medical Center in Bowling Green, Kentucky. This will allow resulting foals to be eligible for the Kentucky Incentive Fund if the mares are bred as well as foaled out in Kentucky. "Mister Passer" foals are also eligible for the AQHA incentive fund, and several other large futurities. We are looking into putting him into other futurity events and would like all mare owners to contact us regarding their suggestions. Our website will be updated as we nominate him to other programs.

Snodgrass Veterinary Medical Center is a well established breeding facility, which was important to us. Their cost are very reasonable and that too was important since we will also be sending our mares there to bred as well. We feel that you can be assured that all your breeding needs will be taken care of at a reasonable cost with no hidden fees.

If we can help you in anyway, please contact us at the above number at anytime.

Sincerely,

Craig and Rena Creswell
